

# QB Builder Link®

Quality Assurance. Smarter. Better.

## How Do I...

Effectively track material/product installation and progress?

Efficiently obtain construction data directly from multiple source?

Streamline communication and documentation processes?

[www.qualitybuilt.com](http://www.qualitybuilt.com)

# QB Builder Link®

Quality Assurance. Smarter. Better.

## QB Builder Link is your answer.

QB Builder Link is a secure, client-friendly, construction reporting program that efficiently captures construction data and QA processes.

When combined with a virtual or on-site inspection program, Quality Built's simple to use Builder Link becomes a powerful QA and documentation program that costs just a fraction of what other QA systems cost.

## Key Features

- » Track construction punch lists and tasks with a simple click
- » Run and distribute comprehensive quality, trend and status reports
- » Capture construction quality data and photos that reduce risk and insurance costs
- » Automates manual processes and enhances reporting capabilities
- » Offers a flexible, expandable platform

### QB Builder Link for Quality Assurance:

Implement customized checkpoints based upon design specifications, products and materials  
Follow construction schedule  
Allow collaboration between special inspectors, internal QA, and/or third party QA inspectors  
Store project data in a single, secure file  
Implement or enhance your quality assurance program  
Minimize construction defects  
Reduce Warranty Claims

### QB Builder Link for Safety Inspections:

Add relevant ADA and OSHA inspection checkpoints  
Document job site conditions  
Report unsafe conditions to responsible party  
Obtain safety training materials and handouts

### QB Builder Link for Maintenance:

Turn your maintenance log into an interactive database  
Document exact date and time maintenance occurs  
Refer questions to technical experts for guidance and support

### QB Builder Link for Draw Inspections:

Tie accounting records to photos/field data in a single report  
Escalate review process  
Reject draws at any stage  
Eliminate need to fax or mail large documents

### QB Builder Link for Claims Processing:

Obtain complete documentation files in a searchable format  
Access any/all documents retained
